

LIDES  
LIGHT IN DESIGN

Crystal starry sky 2023

HANDMADE  
in SLOVAKIA

The company LIDES was founded in 2012 with the aim of bringing to the market high-quality, elaborately detailed lamps that will meet the demands of the most discerning customers.

The lamps are designed with an emphasis on their functionality, to bring enough light into the space and to be controllable in cooperation with modern technologies available on the market.

In themselves, they are beautiful design elements that serve as the main source of illumination while allowing for adjustable brightness and transforming the space into a magical and relaxing atmosphere.

The collection of lamps combines the beauty of glass with light, art with modern technologies and brings a unique and unforgettable experience.

In addition to glass, these fixtures incorporate other high-quality materials such as metals with unique surface finishes and uniquely cut crystals from Swarovski®.

**We provide post-warranty service and renovation for all our products.**

# LED Crystal

made with crystals from Swarovski®

## Unique atmosphere

LED Crystal collection serves for decorative illumination of premium spaces such as SPA, saunas, hotel apartments, restaurants and also bathrooms, bedrooms and other types of rest interior.

Uniquely ground crystals diffuse spot light to create a fancy effect of gorgeously shining stars.

## Orientation lighting

Due to their energy efficiency these lamps are also well-suited to provide orientation lighting in hallways and other common areas.

**Light effects are visible only on pale surfaces.**

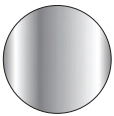

## Elegance and luxury

The LED Crystal collection is made from authentic crystals from Swarovski®, known for their high quality and sparkling appearance. The crystal starry sky will add flair and elegance to any space.

There are 10 types of crystals of different cuts, thanks to which each crystal draws a unique star on the ceiling.
